IF your Caesar class had a grammar which contained the syntax necessary for Caesar, illustrated by sentences from Caesar, it might learn more syntax with less effort. Seventy-eight pages of Towle and Jenks' Caesar contain just such a grammar. The notes refer to this by section. Looking up "grammar references" in such a book appeals to a pupil's common sense: he gets results. There are suggestions for the translation of the more difficult idioms. For the benefit of those using Barss' "Writing Latin", references have been made in Book I of the latter work to the Caesar as well as to the standard grammars.
